## *FIVE STAR APARTMENT HOTEL IN THE MAKING, OPPOSITE THE VILLA KENNEDY HOTEL*

Our latest development project is in Sachsenhausen, Frankfurt. This affluent residential district is home to a large number of professionals and is within walking distance to the CBD.

The property is situated on the apex of two main arterial roads that lead from the airport to the CBD. The project sees us demolish three vacant office buildings and build a cutting edge apartment hotel benefiting from the efficiencies driven by a central core and extension of the current massing. The completed property will look to maximise the uninterrupted skyline views by providing private balconies with every apartment. We have commissioned award-winning Berlin architect Eike Becker to create a new Frankfurt landmark.

The building will have a net usable area of 11,000 sq m (120,000 sq ft).

The project is due to complete by 2020.
